

Admission and Financial Aid

Yildiz Technical University accepts overseas students from diverse backgrounds and prepares them for an active role in the global society of the future. You can either apply to undergraduate or graduate programmes in order to obtain a diploma/degree or to an exchange programme (Erasmus, Mevlana or via bilateral agreement) in order to study at YIU for one or two academic semesters. If there is no Erasmus, Mevlana or bilateral agreement between your university and YIU you still have a good chance to come to YIU. You also have the option to apply as a free mover.

For admission requirements and conditions for bachelor's degree programmes please contact Foreign Students Office; for master and Ph.D. programmes please contact our Graduate Schools. For the Erasmus exchange programme please contact the EU Office; for the Mevlana Exchange programme please contact the Mevlana Exchange Programme Office; and for an exchange programme through bilateral agreement and free mover please contact the International Relations Office.

YILDIZ TECHNICAL UNIVERSITY

Foreign Students Office

The duty of the Foreign Students Office is to help students who come from abroad to our university by YÖGS (Entrance Examination for Foreign Students by YIU), TCS (Turkish Republics, Turkish and Relative Communities Examination), YÇS (Higher Education Entrance Examination for Children of Those Who Work Abroad) and other examinations held by YOK (Higher Education Council) or YIU (Yildiz Technical University), or from the Turkish Republic of Northern Cyprus (TRNC) and through Islamic Development Bank (IsDB), to arrange and manage Foreign Students Entrance Examination, to help the students in academic activities throughout their education.

Mevlana Exchange Programme Office

Mevlana Exchange Programme is a programme which aims the exchange of students and academic staff between the Turkish higher education institutions and higher education institutions of other countries. With the regulation published in August 23, 2011 (num: 28034), students and academic staff exchange between Turkish higher education institutions and higher education institutions of other countries has been possible. The programme includes all higher education institutions throughout the world without discriminating between the geographical borders. The higher education institutions of EU countries benefiting from Erasmus+ programme will not be included in Mevlana Exchange Programme in 2013-2014 academic year. Students may study abroad for one (minimum) or two (maximum) terms and academic staff may lecture abroad from one week (minimum) to three months (maximum). Accordingly, students and academic staff from any country may benefit from this programme being hosted by Turkish higher education institutions in order to study or lecture. YIU Mevlana Exchange Programme Office aims to lift boundaries in order to enable a global platform for mutual understanding, education, cultural exchange and unification; and accordingly to reach every possible institution with a similar perspective. Our office is dedicated to locate those institutions who are willing to broaden their horizon simply by believing in that there are no set boundaries between cultures and science, and that education is for everyone.

International Relations Office

Yildiz Technical University International Relations Office (IRO) is a subdivision of the Rectorate of Yildiz Technical University (YIU). YIU has placed internationalization at the center of its strategy. Accordingly, the IRO was formed with the intention to integrate YIU into today's globalized world, opening its doors to all academicians and students aiming to explore and discover the world. IRO deals in international educational cooperation and programs other than Erasmus and Mevlana Exchange Program. IRO, through signing bilateral and multilateral educational cooperation protocols with the countries all over the world, deals in student and faculty exchange. IRO aims to increase the number of faculty and student exchanges and to increase the international partnerships by setting up double/joint degree programs as well as Cotutelle. IRO provides delegations and groups visiting our university with presentations of university in different languages, guidance service, etc. and organizes activities such as international award ceremonies, conferences, and summer school and internship programs. Our office also provides consultancy on education abroad and scholarships.

Fellowships for International Students

Turkish Government provides more than 800 scholarships to foreign students from various countries in accordance with the bilateral agreements and Cultural Exchange programmes. Some of the scholarships are provided to some countries as a good will gesture. These scholarships cover undergraduate, graduate programmes and summer Turkish language courses. For further details please refer to www.turkiyeburslari.gov.tr

EU Office

Carrying out Erasmus mobility since 2004, EU Office has been awarded with Erasmus Charter for the years 2014-2021, which is the visa to continue coordinating higher education mobility of student and staff under Erasmus+ exchange programme based on inter-institutional agreements signed with universities all around Europe. By means of different types of mobilities such as study and traineeship mobility for students, and teaching and training mobility for staff, EU Office promotes the participation of any students and staff into the programme. As YIU is one of the leading institutions in Turkey in terms of the number of incoming and outgoing students, EU Office plays an active role within the university by contributing greatly to the internationalization process. EU Office collaborates with the academic units in order to provide quality assurance and to motivate student and staff circulation under Erasmus+ programme, thereby adding a European dimension to the educational and cultural atmosphere of the university.

**“A Century Sealed
By Stars”**

YILDIZ TECHNICAL UNIVERSITY

Yildiz Technical University (YTU) with the vision to be a leading institution of international standing represents a unique milieu of education, research and culture in Turkey.

YTU inherits our outstanding science, technology and culture; pioneering open access to academic research, technology and arts. Being one of the most well-known universities of Turkey, it is conducive to the achievement of the goal of the development and welfare of the society.

YTU offers a range of programs at undergraduate and graduate levels, ranging from engineering disciplines to humanities and social sciences. It also provides opportunities for qualified students and academicians to participate in exchange programs.

YTU is one of the leading government institutions situated in three campuses in Istanbul. It is the 4th oldest university in Turkey with its history dating back to 1911. It is regarded as one of the best universities in the country as well. The university's mission is to promote development and cooperation at the national and international level by providing outstanding professional knowledge and skills in the educational fields.

Today YTU has 10 Faculties most of which are related to engineering, 2 Graduate Schools, 2 Vocational Schools, a School of Foreign Languages and more than 35,000 students.

International Students

YTU has placed the goal of being an international university at the very centre of its strategy and is going out of its way to bring it to its students and faculty. YTU offers you the best experience during your study at YTU and your stay in Istanbul.

International students of YTU in all programs benefit from an international experience, either by doing a semester exchange or a double degree in any of our partner schools abroad, or by doing an international work placement. With an increasing number of international students at YTU, it is our pleasure welcoming you and helping you adjust to the life at YTU and in Istanbul.

YTU looks forward to welcoming you.

Research

YTU aims to be engaged with projects that stand for extra benefit in a peaceful ambiance led by a scientific approach with the company of all our internal and external stakeholders. Furthermore, we aim to set up a modern university which can challenge international universities in scientific, social and cultural aspects through the awareness that service to the university provides a service to the world.

YTU aims to catch up with an understanding of quality at the universal standards. In recent years we have exerted extra effort to become a modern university by setting up modern laboratories, research centers and Technopark. In this context, we are strongly convinced that we will doubtlessly contribute to the development of the country by handling social problems and trying to find solutions to them.

For information about Research and Application Centres at YTU please visit www.apry.yildiz.edu.tr

TechnoPark

YTU TechnoPark is a Technology Development Zone, where university, research institutions and industrial organisations work together on research and development activities creating innovative research solutions.

YTU TechnoPark is located on YTU Davutpasa Campus in Istanbul, currently the largest TechnoPark in Istanbul with 60,000 m2 indoor facilities within 8 buildings which offer exceptionally high quality office accommodation. Today TechnoPark hosts over 150 companies employing around 2000 research employees.
