Protocol of Cooperation

Between

TURKISH HIGHER EDUCATION COUNCIL

And

THE COMMUNITY COLLEGES FOR INTERNATIONAL DEVELOPMENT, INC.

This document represents a protocol between the above named organizations.

I. OBJECTIVE

The purpose of this protocol is to record the understanding and commitment of the two parties to promote the strengthening of mutually beneficial educational exchanges and cooperative programs, to be referred to as the 1+1 program.

II. SCOPE OF THE PROTOCOL

Exchanges and cooperative ventures conducted under the terms of this protocol will be based on the spirit of reciprocity and mutual benefit and may encompass the following areas: the exchange of faculty, staff, and administrators; student exchanges and study abroad activities; joint proposal development and exchange of consultants; cultural exchanges; and short term training programs of mutual benefit; curriculum development; and other disciplines as determined, from time to time, including the development of 1+1 programs.

III. PROGRAM IMPLEMENTATION

The TURKISH HIGHER EDUCATION COUNCIL and CCID, will act as principals for the promotion and implementation of this protocol and as central agencies for information about facilitation of, and coordination of new programs to be developed between the two parties. The needs of both parties will be registered, reviewed, and coordinated through consultation with each other.

TURKISH HIGHER EDUCATION COUNCIL and CCID, each in its own country, may support possible fund-raising efforts in support of projects which fall under this basic protocol of educational exchange and cooperation. Joint program development activities may be supported through letters of endorsement, technical writing in support of grant applications, and coordination of promotion and marketing efforts for cooperative programs and exchange activities.

IV. ADMINISTRATION OF THE PROTOCOL

Both parties agree to monitor the progress of this basic protocol through generation of reports and exchange visits. Written correspondence and e-mail will be the customary working method of evaluation, but when necessary, meetings for consultation and decision will be held. The international travel to and within the receiving country will be covered by the visiting party; the local costs will be covered by the hosting institution. Delaware Technical & Community College
will be the lead community college in the U.S. in working with CCID to implement this protocol.

V. DURATION OF PROTOCOL

This protocol becomes effective upon signing by both parties and is continued under the signature of officials representing the two parties. Either party may terminate this protocol by giving written notice of termination to the other, with the understanding that any sub-protocols and elements of this cooperative protocol then in progress will be completed according to the provisions of the sub-protocol.
